The screenshot displays the Aviation Weather Center (AWC) website interface. At the top, the AWC logo and name are visible, along with navigation links for Weather, Products, Tools, and Connect. The main content area features a map of North America, including the United States, Canada, and Mexico. The map is overlaid with various weather data, including radar imagery showing precipitation intensity (indicated by colors like green, yellow, and red) and numerous weather station observations. Each station is marked with a circular icon and associated data, such as temperature, pressure, and wind speed/direction. The map also shows major cities and geographical features like the Hudson Bay and Labrador Sea. On the right side of the map, there is a vertical toolbar with icons for different map layers and tools. At the bottom of the screen, a status bar displays the current time as 12:54 UTC on Sunday, April 16, 2026, and includes a legend for the map data.
