The screenshot displays the Flighty website interface. At the top, there's a navigation bar with the Flighty logo, a search bar for airports, and a TV Mode toggle. Below the navigation bar is a map of Europe with various airports marked by green dots and labeled with their IATA codes. A red dot indicates a live disruption at BOS (Boston Logan International Airport). Below the map, there's a section titled "Major Airports & Disruptions" with a dropdown menu set to "Europe". To the right of the title are buttons for "Live", "Today", and "Download Flighty". Below this section is a table listing major airports and their current disruption status.
