Weather

- — CLST CBs are very likely over LFMM before 0600 UTC. This convection is expected to persist through the night while gradually moving eastward, with significant rainfall amounts expected. Another area of convection is expected to develop along the cold front during the afternoon. CLST CBs are likely to develop over France and move toward EBBU and southern EHAA during the late afternoon. This convection is expected to continue beyond 2100 UTC. Behind the cold front, ISOL CBs are very likely over the UK before 0600 UTC. CLST CBs are also expected over southern LGGG, with this activity likely to persist beyond 2100 UTC.

Aerodromes

- **LFMN (Nice)** — Arrivals regulated due to ATC Capacity. Moderate delays.
- **LGAV (Athens)** — Arrivals regulated due to ATC Capacity. Moderate to high delays.
