Weather

- — CLST CB (Tops FL420) are affecting S-France, continuing through the evening and overnight while slowly moving E/SE. A frontal system from the North Sea to Iberia is bringing rain, cloud and ISOL CB (Tops FL300–360) across France and Iberia, moving eastwards. CB may become CLST at times over N-France and SW-France through the evening. In the wake of the front, ISOL CB (Tops FL240–260) are affecting the British Isles, W-France and the Bay of Biscay. A low-pressure area over the Levantine Sea is supporting ISOL CB (Tops FL280–370) over the Ionian Sea and S-Türkiye, with further CB possible over S-Greece, Crete and Cyprus. Activity will continue overnight, with windy conditions over the Aegean Sea and NW-Türkiye.

Aerodromes

- **LLBG (Tel-Aviv)** — Arrivals regulated at a reduced rate due to ATC Capacity. Moderate delays.

Airspace

- — No significant delays
